Profile

Experienced and dynamic Team Manager with over five years of success, possessing a unique blend of leadership and technical proficiency. Driven by a strong work ethic, a decisive approach, and a commitment to continuous improvement, I focus on delivering excellent team outcomes while expertly managing system infrastructure. Known for my exceptional problem-solving skills, a passion for technology, and the ability to build strong, collaborative relationships across teams. Proven track record of identifying and implementing cost-effective solutions for system improvements, proactive system maintenance and upgrades, preventing potential disruptions, optimizing system performance and reliability and minimizing downtime.
